Hi, welcome to Common Time.

We’ve always dreamt of building a brand that imagines  
coffee as a lifestyle. Everything you see, taste, and feel here  
has been thoughtfully created to offer an experience that  
feels universal — yet always remains rooted in great  
products.

We imagine coffee for both purists and tourists. While we  
spend time perfecting the details — from the beans to the  
milk to the exact steaming temperature — we don’t believe in  
overwhelming you. The best coffee, after all, is the one you  
enjoy most.

Common Time is made for the moments between —  
intentionally serving only bakes and coffee to create that  
gentle pause between your meals, and to quietly become  
part of your daily ritual.

Our bakes will keep evolving — always well done, balanced,  
and never too sweet.

Why Lodhi?

Because the neighbourhood mirrors who we are — creative,  
curious, ever-evolving, and imperfect in the best way.

This is just the beginning. The idea is to take Common Time  
global, and to see the world through coffee.

We hope you have a great time.

COMMON TIME

We have rotational fresh small batch bakes ,  
please check the pastry display for best experience.
